To the Inhabitants of the Town of Wilton, N. H., qualified to vote in Town affairs.

You are hereby notified to meet at the Town Hall in said Town, on the 10th day of March next, at 9 of the clock in the forenoon, to act on the following subjects:

1st—To choose a Moderator to preside in said Meeting.

2nd—To choose all necessary Town Officers for the year ensuing.

3rd—To hear the reports of the Selectmen, Treasurer and other town officers and pass any vote relative thereto.

4th—To see what sum of money the Town will vote to raise and appropriate for the support of schools, including the purchase of text books and supplies, and necessary repairs to school buildings.

5th—To see what sum of money the town will vote to raise for State, County and Town expenses.

6th—To see what sum of money the town will vote to raise and appropriate for the repairs of highways and bridges, support of poor, fire department, public library and all necessary town charges.

7th—To see if the town will vote to repair the highways with a money tax the same as last year.

8th—To see what sum of money the town will vote to raise and appropriate for a proper observance of Memorial Day.—

9th—To see if the town will vote to make an appropriation for expense of committee in publishing pamphlets of the late celebration of 1889.

10th—To see if the town will vote to instruct the selectmen to lay out a highway as described in a petition of Asa H. Goldsmith and others dated Sept. 4th, 1890, and to raise and appropriate money for the same.

11th—To see if the town will vote to instruct the selectmen to lay out a highway as described in a petition of S. D. Bill, and others, dated Sept. 4th 1890 and to raise and appropriate money for the same.

12th—To see if the town will vote to discontinue the highway leading from S. D. and F. W. Bill's to George I. Does, (in case the highway referred to in Article 11 should be built,) or if any part of said highway should be discontinued.

13th—To see if the town will vote to raise and appropriate money to renew the bridge near D. Whiting & Sons gristmill.

14th—To see if the town will vote to instruct the selectmen to cut and remove certain pine trees near the Benjamin Baker lot in the vale end cemetery, and make such other improvements as they may think proper.

15th To see if the town will vote to make needed repairs and improvements in the south cemetery and to raise and appropriate money therefor.

16th—To see if the town will vote to replace the Dale bridge with a stone bridge, and to raise and appropriate money therefor.

17th—To see what sum of money the town will vote to raise and appropriate to contract with the Souhegan Electric Light and Power Company of Milford, N. H.

18th—To see if the town will vote to let the fire department have the free use of the basement of the town house one day in the ensuing year or take any action in any way in relation to the same.

19th—To see what action the town will take in relation to the French Village engine house.

20th—To see if the town will vote to discontinue that portion of the road known as the Abiah Howard road, which is a public highway.

21st—To see if the town will vote to discontinue a certain highway described as follows:—Beginning at the intersection of the same with a certain other highway leading from the Greenville—Wilton road to the dwelling house of Mrs. J. W. Howard and at a point near said dwelling, thence running in a southerly direction about ten (10) rods to its terminus.

22nd—To see if the town will have the selectmen appoint the highway surveyors and have the same enter upon their duties as early in the spring as the selectmen may deem it practicable.

23rd—To see what sum of money the town will vote, raise and appropriate towards grading and hardpanning the road from the gate to the top of the hill in the village cemetery, also to lay out lots which are not all ready staked out.

24th—To see if the town will vote to instruct the selectmen to employ a veterinary surgeon to make an examination of any or all cattle in this town, and authorize the selectmen to make such examination and raise and appropriate money for the same.

25th—To transact any other business that may be lawfully brought before the meeting.

Given under our hands and seal, this 21st day of February, in the year 1891.

Engineers' Report Fire Department.

FELLOW CITIZENS :—

While our Department has not been called into active service during the year past, let us not loose our interest in it, or refuse to make our annual appropriation. The hose-tower has been completed, the house painted outside and the inside made more home like by a few necessary repairs. One hundred and fifty feet of new leading hose has been purchased, to take the place of some that needed repairing. On the third of November the engineers with no small degree of pride met some twenty-five of our young men at the engine house, and helped organize them into a volunteer company to man Carmi Engine Co. 2.

The paid company will find no mean rival in the volunteer company, composed as it is of our best young men. They are going to get there should there be a call.

Excelsior No. 1, has some 46 men who are hard to beat as repeated trials have proved. We come now to the pump. Twice it has been reported all right, and twice the pipe has been filled with ice the last of April.

We emphasize what was said in a former report, "where there is such a chance for a gravity service it seems out of place to use force."

We recommend that the pump under the Whiting Mill belonging to the town be disposed of, or the matter fixed in some way, so the town will pay when they use it and not for taking care of it. In submitting this report, our thanks are due the electmen and citizens for their cordial support for the year.

Respectfully submitted,

TRUSTEE'S REPORT.

The Trustees of the Wilton Public Library herewith present their report for the year ending March 1, 1891.

As the report made by the Trustees at our last annual meeting was not printed, it was thought best for the information of those who were not present on that occasion that the report made now cover both years that the town has made appropriations for the library; and in accordance therewith the Treasurer has made his report, which we trust will show you plainly how your monies have been expended.

At the outset the Library was very fortunate in receiving a gift from George A. Newell, Esq., of Boston & Wilton, a choice and well selected collection of 1000 volumes.

The Ladies Reading Club also rendered great assistance, not only by their very generous contribution of 307 volumes, at a cost of \$311.06, but by their intense interest in the Library then and their unabated interest in it now.

There was also another gift from Rev. I. S. Lincoln, who has now "passed over to the golden shore," and who always mani-

fested a genuine love for all things that tended to make men better and "Nearer My God to Thee."

At the last annual meeting the town voted its "thanks" to these generous donors and an attested copy of this vote was sent to each by the town clerk.

There is in the hands of the Treas., a general cash fund invested in Savings Bank and Real Estate Mortgage, amounting to nearly \$2000 and in addition to this is the Arthur H. Burns' fund which now amounts to about \$125.

The Trustees consider themselves and the Town very fortunate in securing the services of Miss Putnam as Librarian. She has done an immense amount of hard work during the year in arranging the books, covering them and indexing, preparing cards, visiting other libraries, procuring catalogues and learning the best method possible in which to do the work.

The number of volumes now in the library is 1836. In addition to the gifts mentioned above, we have received from Mr. and Mrs. Francis Green a donation of \$50.00 with which 53 volumes were purchased.

The Swedenborgian Pub. Co., gave 20 volumes; there were 165 vols. left from the fire which destroyed the old Library; J. Tyler Stevens of Lowell 5 vols.; other individuals 115 vols.; purchased 150 vols.

The Library was opened to the public Apr. 22, 1890, and during the ten months now passed there has been issued 410 cards. The whole number of volumes taken out 5933, being an average of 68 plus upon each day opened.

May 1890, the first full month of its work, 597 vols. were issued and Jan. 1891, the last full month, 712 were taken out which seems to be good evidence of the increasing interest in its work.

A good library benefits all but more especially our younger people. To the boys and girls in our schools it is a valuable help and it can certainly do no harm to those whose locks are frosted with the chills of age.

We trust the results of the year now passed are such that the good old Town will continue her generous confidence in the Wilton Public Library.

D. E. PROCTOR, for the Trustees.

March 1, 1891.

George Whiting, Treasurer, in account with Wilton Public Library, for the year ending March 1, 1891.

W. H. BARNES, Sexton.

REPORT OF THE BOARD OF EDUCATION,

FOR THE YEAR ENDING MARCH 1, 1891.

At the annual meeting of the district held March 15, 1890, Geo. E. Bales was re-elected a member of the Board of Education for the term of three years. Subsequently an organization was effected by the choice of Mr. Bales as chairman and Mrs. Barnes as secretary and treasurer.

In again presenting our annual report for the consideration of the citizens of the town, we desire to express our sincere appreciation of the courtesy which has been so generally extended by parents and teachers and the hearty co-operation of all interested parties in our efforts to promote the educational interests of the town.

It is with gratification that we express our conviction that the schools have enjoyed a degree of prosperity, during the past year, which must prove satisfactory to the citizens of the town. The fact that a more general and active interest in educational matters on the part of the town's people, is each year becoming more manifest, is noted with especial pleasure. Any effort for the public welfare is attended with the best results where a strong public sentiment supplimented by active interest sustains and approves it. In the appropriations which the town has made for school purposes, we feel that a creditable spirit of liberality has prevailed. We have endeavored to expend the funds at our disposal in a wise and judicious manner that the best results might be obtained.

TEACHERS.

Special training for any vocation may not take the place of experience, but it is the best possible substitute for it. And when the soil to be cultivated is the hearts and minds of our children we cannot afford to employ cheap labor. Teaching is a calling, noble, grand and elevating. Our schools all demand teachers of the highest qualifications, and it has been our aim to secure and retain only those who meet such requirements.

While the best teachers are *born* not *made*, we earnestly recommend that any who may aspire to become teachers, should thoroughly equip themselves for the work by a special course of preparation.

The few changes in our corps of teachers during the year indicates our confidence and faith in the character and value of their work. We feel that without exception they have been exceedingly conscientious and faithful in the performance of their duties. Their success is measured by their ability and fitness for their work. Teachers should keep themselves "Masters of the situation" at all times; and as order is "Heaven's first law," they should insist in the school room upon due recognition of this law celestial.

THE NEW LAW.

The town system of schools has been thoroughly tested and is no longer an experiment. Its success is not problematical but an assured fact. Indeed the new law was not an experiment but was modeled after the laws of our most enlightened and progressive states; and we believe was as certain of successful application in the greater portion of our state, as the final triumph of truth over error. However, like all measures of reform it can be made detrimental to the cause it aims to bene-

fit. It remained largely with the people to make it a success or failure. While the district system was not without its advantages, we believe that the increase in the number of weeks of schooling, the better grade of schools and more uniform distribution of school funds, have by far out-balanced the inconvenience to which the most remote scholars have been subjected.

SCHOOL BUILDINGS.

With the exception of the Barrett school house the buildings outside the village are in fairly good condition. Several, however need to be painted and require some minor repairs. But the condition of the buildings at the village, especially that occupied by the Grammar and High schools is such as to demand the early attention of the town. With no system of ventilation, inadequate in accommodation, and sadly in need of reconstruction, the question is now one of pressing importance. Shall suitable buildings be erected or further expenditure made on the old buildings? We are firmly of the opinion that the time has come for action on the part of the town towards the erection of suitable school buildings in a proper location, with a view to the health and comfort, as well as educational progress of the youth of the town.

We are inclined to the opinion that one of the buildings could continue to be used for the lower grades, believing that a separation of the higher from the lower grades would promote the moral condition of the schools. We earnestly recommend that the town give thoughtful consideration to this matter. Is it not better to regard the present health and training of your children than to strive to leave them a rich legacy?

The over-crowded condition of the primary school room, which has been referred to in previous reports, is an evil which must be remedied. The school contains three grades, the in-

struction and management of which imposed upon a single teacher, is a task too exacting and laborious. Again, a large number of pupils are compelled to occupy a single room which is certainly unwise from a sanitary point of view.

We would suggest as a remedy the division of the school and the opening of a second primary school in some suitable quarters provided such can be obtained. In order to accomplish this result there is need of an additional appropriation to provide such room with needed furniture and to meet the salary of an extra teacher. We feel that this is of special importance and hope that it will recommend itself to the favorable action of the town.

FREE TEXT BOOKS.

A scholar's chief aids in obtaining an education are the assistance rendered by teachers and that derived from the use of text books. If one is provided free of expense, why not the other, has been the argument of the advocates of the free text book system. The experience of other states, which have been wise and liberal in educational legislation, bears evidence to the wisdom of the law, and warrants our expectation that the results will be equally satisfactory here. We hope to give the law that approval which we believe its merits entitles it. We would caution parents and scholars against taking advantage of the privileges granted by the law.

The following text books are in use in the schools at the present time.

READERS—Barnes' series, Supplementary, Harper's and McGuffey's.

ARITHMETIC.—Wentworth's and Colburn's.

GRAMMAR. Hyde's and Patterson's.

SPELLERS.—Normal.

ALGEBRA.—Wentworth's.
 GEOMETRY.—Wentworth's.
 BOOK-KEEPING.—Meservey's.
 PHYSIOLOGY.—Blaisdell's.
 PHYSICAL GEOG.—Houston's.
 PHILOSOPHY—Avery's.
 RHETORIC.—Hart's.
 POLITICAL ECONOMY.—Chapin's.
 CIVIL GOVERNMENT.—Macy's.
 BOTANY.—Gray's.
 LATIN.—Allen and Greenough's.
 GEOGRAPHY.—Butler's.
 COPY BOOKS.—Normal Review.
 HISTORY.—Barnes' and Eclectic.

GENERAL REMARKS.

While the schools have a fair supply of maps, globes and other apparatus, much could be added which would prove of great benefit and assistance to the scholars in their work. We hoped to be able to acknowledge, in this report, some additions to the limited supply of books of reference; but the opening of the public library has rendered a service in this direction which cannot be over-estimated.

In the ungraded schools where a course of study cannot well be prescribed, there is an inclination to pursue studies which result in a multiplicity of classes. This has often proven a difficult matter to adjust satisfactorily. We would suggest as far as possible a conformity to the course pursued in the village schools, which with the uniform text books now in use can be followed without trouble.

A statement of the sum expended for text books and supplies appears in the account of the purchasing agent. Expenditures in this direction in the future will of course be much less as the

district has a good supply of books, which with careful usage, ought not to need replacing during the ensuing year.

ATTENDANCE.

According to the returns made by the selectmen in April, 1890, of children between five and fifteen years of age, there were 294 of school age.

The whole number enrolled in the school registers is 310, of whom 139 are boys and 171 are girls. The registers also show that there are 2 under five years of age and 47 over fifteen years of age.

The whole number as appears from the school registers, who attended school the past year, the average attendance and number of weeks of school, appears in the following table.

Schools.	Whole No.	Boys.	Girls.	Av. At.	Terms.	Wks.

We trust that the citizens will continue to foster and encourage the educational interests of the town, that the institution which was cherished and defended by our ancestors may be extended and enlarged to the common welfare of our people.

Respectfully submitted,

GEO. E. BALES, CHAIRMAN.
